Suzan Limberg, WT/3
Storm Water Specialist, Bureau of Watershed Management
Division of External Services
Wisconsin Department of Natural Resources
P.O. Box 7921
Madison, WI 53707-7921

Dear Ms. Limberg:

Pursuant to s. NR 216.06, Wis. Adm. Code, this letter serves as the application to request coverage under WPDES General Permit No. WI-S066800-1, Storm Water Discharges from the Wisconsin Department of Transportation Separate Storm Sewer System ("TS4 general permit").

General Information

Applicant: Wisconsin Department of Transportation (WisDOT)
Contact Person: Robert Armstrong
Title: Stormwater Engineer. PE CPESC
Mailing Address: 4822 Madison Yards Way
5th Floor South
Madison, WI 53705
Telephone No.: 608-267-3147 C: 608-516-6371

Email Address: Armstrong, Robert A - DOT <RobertA.Armstrong@dot.wi.gov>

Descriptions of the minimum control measures that the WisDOT intends to implement to comply with the TS4 general permit:

- *Public education and outreach:* The WisDOT will implement a public education and outreach program in accordance with section 2.1 of the TS4 general permit that establishes measurable goals to increase awareness of storm water runoff pollution impacts on waters of the state and to encourage changes in public behavior to reduce such impacts.
- *Public involvement and participation:* The WisDOT will implement a public involvement and participation program in accordance with section 2.2 of the TS4 general permit that establishes measurable goals to notify the

public of activities required by this permit and to encourage input and participation from the public regarding these activities.

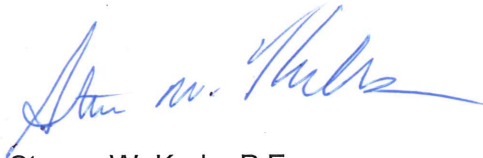

- *Illicit discharge detection and elimination:* The WisDOT will implement an illicit discharge detection and elimination program in accordance with section 2.3 of the TS4 general permit that establishes measurable goals to detect and remove illicit connections and discharges to the TS4.
- *Construction site pollution control:* The WisDOT will implement a construction site pollutant control program in accordance with section 2.4 of the TS4 general permit that establishes measurable goals to reduce the discharge of sediment and construction materials from construction sites.
- *Post-construction site storm water management:* The WisDOT will implement a post-construction storm water management program in accordance with section 2.5 of the TS4 general permit that establishes measurable goals to control the quality of discharges from areas of new development and redevelopment, after construction is completed.
- *Pollution prevention:* The WisDOT will develop and implement a pollution prevention program in accordance with section 2.6 of the TS4 general permit that establishes measurable goals to prevent or reduce pollutant runoff from the TS4 to waters of the state.
- *Storm sewer system map:* The WisDOT will develop a storm sewer system map in accordance with section 2.7 of the TS4 general permit and submit the initial storm sewer system map to the Department of Natural Resources by September 30, 2019.

We certify that we are authorized representatives of the WisDOT as the applicant for coverage under that TS4 general permit, and that the information provided is true and complete, to the best of our knowledge. If you have questions concerning this submittal, please contact Bob Armstrong.

Sincerely,

Rebecca S. Burkel
